PROFESSIONAL EXPERIENCE

- 07/04/2025 - 06/06/2025: Internship related to my BUT program at Bittiguru Oy, in Joensuu, Finland, through the Erasmus program. This experience allowed me to explore the professional world in IT, web development, and international experience.
- 24/03/2025 - 28/03/2025: Web development project related to Erasmus, professional in nature, in collaboration with the company Matsiemaal, based in the Netherlands.
- July-August 2024: Summer job: Sorting agent at Mytilimer company: discovered the professional world, teamwork, and adherence to production standards.
- January 2020: Internship at an eco-landscaping design office: learned about landscaping software, addressed client requests, and created estimates.

PORTFOLIO

- Access my online portfolio: [Accédez à mon portfolio en ligne : https://hugues-porchet.com/](https://hugues-porchet.com/)

DIPLOMAS

- Currently, second year of a University Bachelor's Degree in Computer Science: web development, object-oriented programming, and network administration, specializing in application development.
- 2023: General Baccalaureate, with specializations in NSI (Computer Science and Digital Sciences) and Mathematics.
- 2020: Middle School Diploma (Brevet des Collèges).

SKILLS AND QUALITIES

- 2014 - 2019: Experience in the theater world: strong diction and ease in oral presentations.
- 2013 - 2015: Involvement in an archery club: improved concentration, patience, and stress management.
- Open-minded and comfortable with teamwork.
- Logical thinking and problem-solving skills.

INTERESTS

Drawing: helps improve concentration, stimulates creativity, reduces stress, and promotes self-expression.

Development: coding outside of classes to gain better mastery and discover alternative approaches.
